

Recycling Coalition of West Virginia

Recycling Champion Award Winners 2008

The Recycling Coalition of West Virginia in collaboration with local or regional solid waste authorities is honoring eight **Recycling Champions** who reach beyond their normal responsibilities to contribute time and service to support the recycling industry in the Mountain state. These individuals, groups, and businesses provided significant recycling leadership across the state and make a significant contribution to improve the recycling community. Several of this year's Recycling Champions volunteer countless hours and have initiated recycling programs in their communities. Other Recycling Champions are businesses that went above and beyond to remove or recover materials previously destined for landfill. Still others have a longtime commitment to removing roadside litter and recycling those items carelessly discarded by others. Each of our 2008 Recycling Champions contribute time and service to making the Mountain state a better place. Join us in acknowledging and congratulating those who are true recycling champions in our state.
